

The Conjunction Junction

by Kathleen Wiley

Get on the train
And train your brain
For the Conjunction Junction
The function of conjunctions
Is just to form a junction
Between words
Or groups of words
Of the same type
So at Conjunction Junction
You know we'll always get it right...

Coordinating Conjunctions are AND BUT FOR NOR OR SO YET
How lucky can we get?

The Correlative Conjunctions are word pairs we know...
BOTH....AND
NOTBUT....
EITHER... OR
NEITHER...NOR
NOT ONLY...BUT ALSO....

So as we write
We'll be aware.... of the Conjunction Function....
That functions without compunction to form Conjunction Junctions..

For sentences with no conjunctions cause us grave compunctions
So we'll perform no functions without our favorite conjunctions!!!
