

Pronouns

by Kathleen Wiley

Pronouns are used as substitutes, for nouns that we don't choose to use

Pronouns, for nouns

I my it she he we you me they them him her our and us.

Pronouns can be used anywhere

Pronouns are words beyond compare

Pronouns for nouns

So anywhere a noun can be

Use the pronoun family...

So **me myself** and **I** and **mine**.

And **he himself him his** so fine

She her hers herself we us our ours ourselves oneself

Its it they..... their theirs and **them** you see

You your and **yours.....**

yourself yourselves and we have learned the pronoun family.

For Tommy, it's **himself** and **him** and **his** and **he**

For Susie, it's **herself** and **her** and **hers** and **she**

For both...**they, their..... theirs them..... themselves**

For **you** and **me** we know it's **us**

For **you** and **I** don't make a fuss

Use pronouns **we ...our.... ours ourselves...**

So when you want to substitute

A word for nouns you'd like to use....

You know....it's so...that anywhere a noun is shown....the pronouns also sometimes go

So choose a noun and make life fun

Or choose a pronoun, you're the one

To say...which way...the sentence reads....

So **me myself** and **I** and **mine**

And **he..... himself him his** so fine

She her.... hers herself..... we us our ours ourselves oneself

Its it they their theirs and **them** you see

You your and **yours.....yourself yourselves** and we have learned the pronoun family.
