

# Computer

by Kathleen Wiley

We're going to computer. We're going to have fun.  
We're going to computer and we'll work until we're done!  
We're going to computer and we will there assess  
The work of the computer and we'll do our very best  
To have fun in computer because it's plain to see  
That working in computer is just fun for you and me

# Going Up or Down the Stairs

by Kathleen Wiley

When you're going up the stairs keep on the right.  
When you're going down the stairs keep on the right  
Going up or down it doesn't matter  
On the right is where the traffic gathers  
So when on the stairs keep on the right.

# Goodbye

by Kathleen Wiley

Now is the time that we must sever a friendship that will not end ever.  
Sometimes families have to move on. We'll always be friends, but now  
it's so long But we've got letters and phone calls, then there's email.  
Please let us hear from you without fail Because our friends we'll  
always be Friends forever, just you wait and see, But now it's So long.  
So long. Aloha, Aloha, So long. So long. Aloha, please write!
